PROFILE

Aspiring full-stack web developer with a strong background in MERN stack and various technologies, such as HTML, CSS, and JS, as well as React.js. Enjoys learning new technologies. Through dedicated effort, I look forward to making an important contribution to an organization.

PROJECTS

1. INDIA MART CLONE ● LIVE

In addition to providing B2B and customer-to-customer sales services, IndiaMART InterMESH Ltd also offers e-commerce. Business-to-business portal IndiaMART.com was founded in 1996 by Dinesh Agarwal and Brijesh Agrawal.

TECH STACK:

HTML | CSS | JavaScript| FontAwesome | Local Storage

FEATURES:

Home Page | Login/Signup | Shop | Cart | Checkout

Areas of responsibility:

- On the button, the Transition Effect has been implemented.
- On the CSS Part Making Footer part.
- Hover Effects on Product & Services page.

A Six-member team developed this collaborative project within five days.

2. URBAN COMPANY CLONE ● LIVE

Through Urban Company, professionals with specific skills and experience can connect with those looking for those services. After a user joins the platform, our match-making algorithm identifies professionals who are available at the requested time and date that are closest to their requirements.

TECH STACK:

HTML | CSS | JavaScript| JSON server | FontAwesome | Local Storage

FEATURES:

Landing Page | Home Page | Login/Signup | Shop | Cart | Checkout | Carousel

Areas of responsibility:

- An entire landing page including a footer and navbar.
- All product samples on the home page have hover effects.
- The home page features a carousel slide show.
- The Address Page map has been implemented using CSS.

Five days were spent developing this collaborative project by a team of six members.
